

MBPC

MBipc means Mathematics, Biology, Physics and Chemistry. In this, students can learn both subjects that is mathematics and biology in their Intermediate First Year and Intermediate Second Year.

By this stream students will get complete information on both mathematics and biology. After qualifying this stream students can go in any path, i.e., students can choose either Engineering, Degree or even Medical fields and those who completed this course can take so many other related courses which will be available for Biology based and Mathematics based courses.

In some colleges this is also known as PCMB or MBipc or BMPC or PMCB etc.

If student need to go for Engineering then they can write related entrance examinations like

- AP EAPCET
- TS EAMCET
- JEE Mains & Advance
- University Exams
- Other State & Countries entrance examinations

If student need to go for Medical field then they can write related entrance examinations like

- AP EAPCET
- TS EAMCET
- NEET
- University Exams

- Other State & Countries entrance examinations

If student need to go for Agricultural Field then they can write related entrance examinations like

- AP EAPCET
- TS EAMCET
- ICAR
- University Exams
- Other State & Countries entrance examinations

If student need to go for Degree Field then they can write related entrance examinations like

- AP PGECET
- AUCET
- AP ECET
- AP ICET
- College Exams
- University Exams
- Other State & Countries entrance examinations

This stream is one of the best stream, and through this stream students can go for different stream like Engineering, Regular Degree, Medical, Agriculture.

Interested students can join in this course and it will be a best course for those people who don't know what to do after completion of intermediate.

After Intermediate they can choose any course, so it will be beneficial for the students and they can study what ever course they need.
